This permit does not extend the permittee the right of ingress and

egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a

preferred use.

This permit is issued with the requirement that a comprehensive monitoring plan be submitted to the State Engineer for approval within ninety (90) days from the date of the issuance of this permit. The plan shall be submitted and approved by the State Engineer prior to any pumping of the well.

The permittee is required to submit an annual report of the monitoring results. Upon review of the annual monitoring results the State Engineer will retain the right to reduce the pumping from this cell or to take any other action that may be necessary to protect the public interests or to prevent conflicts with prior existing rights.

The total combined duty of water under Permits 49414, 49660, 49661, 49662, 49978, 49979, 49980, 49981, 49982, 49983, 49984, 49986 and 49987 shall not exceed 8,600.0 acre-feet annually.
